Proudly made in the U.S.A.

"We use VET-DEK as one of the major components of our marketing. We find it to be very effective due to the fact that we can track our leads and know exactly what our Return on Investment is. We will continue to use VET-DEK because of the quality of leads produced which often result in sales."

Paul Kennedy
 Vice President
 Engler Engineering

"VET-DEK has been a very useful tool for our small business to effectively reach the marketplace we are targeting. The response we receive is phenomenal. We are extremely pleased with the service we receive. For the price, VET-DEK is one of the best advertising tools out there."

"We've enjoyed working with VET-DEK for over four years now. We're not set up to have 30-40 sales reps on the road so we rely heavily on leads from our advertising. We appreciate the variety of opportunities VET-DEK offers including direct mail, email, mini-catalogs and online ads. Response to VET-DEK has been excellent. I recently called on a new customer, who pulled out our card in VET-DEK. We know these decks are getting out to the right people and that they're being opened and used."

Chase Brown
 Director of Sales
